Notably, Manoj is a contributor to the Selenium project and is also a member of the project leadership committee for Selenium. He is an Appium committer too. Manoj is passionate about sharing knowledge and has delivered keynote sessions at Selenium Conference, STeP-IN, and SLASSCOM apart from other technical talks around the world. He is an avid accessibility practitioner and also a voluntary member of the W3C ACT-R group. Manoj has previously worked at and been a part of digital transformation programs at leading companies like Thoughtworks, Wipro, and IAG, among others.

DIWAKAR MENON, Director, Last Mile Consultants

A tester, a process consultant, auditor, a management professional, a business unit head, an entrepreneur – I have been through all of these roles, in the domain of software testing. As an independent consultant, I help organizations in their strategic pursuit of growing their business, marketing, pre-sales & defining engagement roadmaps & overseeing its implementation.

ARUN NARAYANASWAMY, Senior Director of Engineering, Amadeus Labs

Arun is a DevOps evangelist, currently in the role of Senior Director Engineering at Amadeus Labs, helping the company transform development processes and bringing in cultural changes for Agile, OpenSource and DevOps adoption. Arun began his career with Infosys in a Banking product group, before taking on engineering and project management roles in retail giants, WalMart and Tesco. Armed with 14 years of experience, he is as comfortable talking technology with a developer, as he is in managing stakeholder & leadership expectations at large enterprises. His expertise spans across multiple functions of software development in the retail and banking domains. He hails from Bangalore where he has lived and worked most so far. He holds a Bachelor of Engineering degree from the Visvesvaraya Technological University, and an Alumni of INSEAD school of Business – France. Arun's interests span traveling, photography, and cooking. When he is not managing mission critical IT projects, he undertakes photography assignments.

SRIKANT SUDEKUNTE, Business Architect and Product Owner, Nokia

Srikant Suddekunte is a Certified Business Architect (CBA) and Product Owner (PSPO), having over 18 years' experience in Client and Requirement management in Business Process Management (BPM), workflow and process automation. As a lead Business Architect, Srikant has been a key player in programs across different industry domains like Healthcare, Banking, Insurance, he becomes a strong link between Business and Technology. Srikant has MBA degree with dual specialization in Systems and Finance from Goa Institute of Management (GIM). Along with his employment, he is currently pursuing his Executive PhD, from IIM Raipur. Srikant has presented his research work at international conferences like ICDE 2022 and IEEE. In professional space, Srikant is working on low code/no code initiatives for digital process automation and academically he is pursuing research in Data Privacy.

SREEKALA SUNDERRAJAN, Senior Corporate Leader

Strategic Leader who has delivered turn key results in location strategy, people strategy, change management and growth mindset consecutively. 18+ years of extensive total experience. Over 11 years in Engineering and 8 years in Project, Programme and Delivery Management.

SANTHOSH TUPPADA, Software Testing Guru

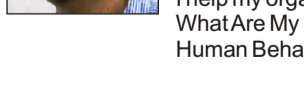

Santhosh Tuppada is an intrinsically motivated and passionate software tester whose specialty is security testing apart from his love for exploratory testing and check automation. He became a hacker at the age of 16 and he has variety of experiences through hacking and he loves to speak about his transformation from unethical hacker to ethical hacker. Santhosh having unethical hacker experience before transforming as an ethical hacker knows about how his enemies (blackhat hackers) function and how he can help companies to work on safeguarding the application and making it highly difficult for blackhats to compromise the application. Apart from this, Santhosh is also OWASP CheatSheet Series Contributor and likes to call himself "Privacy Fighter" because he cares.
